Inventor : Koji ARAI  
Applicant : Nihon Denso Kabushiki Kaisha  
Application No. : S45-136163  
Filing Date : December 27, 1970  
Publication Date : August 12, 1975  
Title of Invention : AUTOMOBILE ELECTRIC PARTS CONTAINER

**Claim 1**

An automobile electric parts container in which a case is engaged with a base plate, which is adapted to accommodate automobile electric parts, so as to cover the automobile electric parts, wherein a groove is formed in an inner side of the case, which becomes a lowermost portion in a state of being mounted, by making a thickness of the case be thin, and a clearance for water removal is formed by the groove in the fitting portion between the base plate and the case.
